Happy New Year!

As a multi-line printer and converter we constantly monitor our raw costs with our film and paper mills. However, one particular product line must increase. Printed Reinforced Gummed tape must increase **5%**. This is due to a national increase from our paper mills. As you may know, Reinforced Gummed Tape is primarily controlled by a few national paper mills and both claim that increased cost of paper, labor and transportation costs are causing the change in price.

Printed Kraft and White Reinforced and Gummed Tapes will increase 5% with orders placed on **March 1, 2019**.

Printed Polypropylene Acrylic /Hot Melt Adhesive Tape	Printed PVC Tape	Printed Water Activated Reinforced & Gummed
NO CHANGE IN PRICE	NO CHANGE IN PRICE	Up 5%

Since 1995, our vision has always been to provide our valued distributors with the highest quality printed tapes.

If you have any questions concerning these adjustments, please don't hesitate to contact me. [A new distributor price list to follow.](#)

We appreciate your business and looking forward to serving your printed tape needs.

Cordially,

David Perlman, President
